

WGP-FR : Pluse rate divider

Pulse rate divider which outputs pulse signals with division and waveform shaping

■ Features

Division setting by the front switch available

Easy maintenance by plug-in structure

■ Delivery : 1week

■ Specifications

Input	Pulse signal : Upper limit 100kHz Voltage pulse : 200mVp-p to 50Vp-p, with 0V in the center Voltage pulse : L : 1.5V or less, H : 5V or more Open collector・・・5V/1mA
Output	Pulse signal(2-output) Non-contact for driving magnetic counter Open collector Voltage pulse
Power	AC100~120V AC200~240V DC24V DC110V
Dielectric strength	AC2000V
Weight	Approx.200g
Dimensions(HWD)	105×25.6×136.5mm
Operating temperature/humidity	-5~~+55℃ Lower limit 90%RH
