Features

★ CE approved

★ 5 years warranty, long life

★ Fine Zero & span adjustment by 15 turn trimmer
★ Zero & span adjustment ±10% full scale
★ Safe design by dielectric strength of 3000Vac

WSPF-THS

This compact plug-in converter accepts Thermocouples signal input conforming to JIS standard and provides optically isolated DC voltage or current output. This converter has a linearizer, a cold junction compensation circuit, and a burnout protection circuit as standard equipment which is required to measure temperature.

★ Linearizer, Cold junction compensation circuit, and Burnout protection circuit built-in

| Code     | Output                              | Allowable Load<br>Resistance |  |  |  |  |

\*1...CE approval do not adapt input range code 99 and output range code S.

\*2···CE approval do not adapt when power supply is 10.8Vdc to 30Vdc.

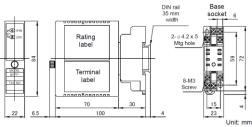

#### Specifications

| Accuracy                    | ±0.2% FS (at 23±10°C)   |  |  |  |  |
|-----------------------------|---|--|--|--|--|
| Response time               | Approx. 25ms ( 0 to 90%)  |  |  |  |  |
| Allowable load              | Current output  |  |  |  |  |
|                             | 15V or less of voltage drop                                       |  |  |  |  |
|                             | Voltage output  |  |  |  |  |
|                             | Load current 5mA or less  |  |  |  |  |
|                             | *1µA or less if the output is less than 1V FS                     |  |  |  |  |
| Zero & span adjustment      | ±10% FS (15 turn trimmer)   |  |  |  |  |
| Operating temperature       | -5 to +55°C   |  |  |  |  |
| Operating relative humidity | 90% or less (Non-condensing)                                      |  |  |  |  |
| Temperature coefficient     | ±0.015% of span per °C  |  |  |  |  |
| Cold junction compensation  | ±0.5°C or less at 23±10°C (±1°C or less for R, WR and S)          |  |  |  |  |
| Accuracy                    |   |  |  |  |  |
| Cold junction compensation  | 10 to 40°C  |  |  |  |  |
| Temperature                 | *R, S, WR thermocouple : ±1°C                                     |  |  |  |  |
| Linearization               | Available (30% FS or less of R and W is out of range)             |  |  |  |  |
| Burnout protection          | Upscale / downscale *Please specify when you order for downscale  |  |  |  |  |
| Isolation                   | Between input, output, and power supply                           |  |  |  |  |
| Insulation resistance       | 100MΩ or more with 500Vdc megger                                  |  |  |  |  |
|                             | Between input, output, and power supply terminal                  |  |  |  |  |
| Dielectric strength         | 3000Vac for 1 min between power supply and input/output terminal, |  |  |  |  |
|                             | 2000Vac for 1 min between input and output terminal               |  |  |  |  |
| Power consumption           | Approx. 4.4VA (AC), Approx. 63mA (DC)                             |  |  |  |  |
| Power supply variation      | ±0.1% FS (within the range of rated voltage)                      |  |  |  |  |
| Dimensions                  | 84(H) X 23(W) X 106.5(D)mm  |  |  |  |  |
| Weight                      | Approx. 130g  |  |  |  |  |
| Structure                   | Plug-in (Body part and socket part)                               |  |  |  |  |
| Connection                  | M3 SEMS screw part of the base socket (Tightening torque 0.6N·m)  |  |  |  |  |
| Mounting                    | DIN rail or wall surface  |  |  |  |  |
| Case color and material     | Ivory, ABS resin, flame retardant grade UL94V-0                   |  |  |  |  |
| EMC directive               | EN61326-1, EN61010-1, EN IEC 63000                                |  |  |  |  |
|                             | Installation category : II, Pollution degree : 2                  |  |  |  |  |
| Rated altitude              | 2000m or less   |  |  |  |  |
